STUDIO EL

we are art consultants

we are a fine art gallery

we are fine art publishers

we are custom framers

we are healthcare

Studio EL Healthcare is a creative house providing art advising, design services and custom artwork to the healthcare industry. We are an art publisher, fine art gallery, framer and art consulting firm under one roof. This truly sets us apart from other healthcare art consultants. By working with Studio EL you are coming directly to the source — art and manufacturing — which has great economical and creative advantages.

Whether your project requires framed artwork, stretched canvas, or public space sculptural works, we can provide the solution. Our art department works directly with many artists, offering an expansive collection of images and options for every project. We provide solutions at exceptional value with a strong emphasis on quality, project management, fulfillment and customer service.
